SciENcv —What Researchers Need to Know

SciENcv — Science Experts Network Curriculum Vitae —is a free Web based utility that helps researchers assemble the professional information needed for participation in federally funded research. SciENcv gathers and compiles information on expertise, employment, education and professional accomplishments. Researchers can use SciENcv to create and maintain biosketches that are submitted with grant applications and annual reports. SciENcv allows researchers to describe and highlight their scientific contributions in their own words. Its creation was requested by the Federal Demonstration Partnership, a cooperative initiative among federal agencies and recipients of federal funds, as a way of reducing the administrative burden placed on researchers.

% H Q H ¿ W V R I Using SciENcv:

- x Produces National Science Foundation (NSF)-approved biosketches* for use in grant applications
- x ENNar5-5 (ar5-52.5.017 T2.8 (.364 Td [45u.4 (n1m.7 (Tf554 (N)4-rr0Tm)7.3 017 T2.-5 (ar5-52.5.017 T2.8 --_2.5.

L S O H V R I 6 F L (1 F Y

- x Any researcher may register, including graduate students
- x Data are owned by the researcher
- x Researcher controls what data are public
- x Researcher edits and maintains information
- x Researcher provides own data to describe research outcomes
- x Researcher has ultimate control over data in biosketch
